We were among the first to experiment with rice straw. By repurposing the surplus straw that would otherwise be burned, we help prevent harmful air pollution and reduce fire hazards during dry seasons. Additionally, Using only the leftover straw, we ensure no impact on the livestock's food supply, making our baskets a sustainable and responsible choice.

Our seagrass collection combines natural beauty with sustainability. Handwoven with care, these baskets showcase the strength and versatility of seagrass, offering eco-friendly storage solutions that bring warmth and texture to any space.
